Newsletter from Don Bosco Child Labour Mission (DBCLM), Davangere

Volume 1, Issue 2

Director's Note

In the human history, social work profession had played a major role in the upliftment of the poor and marginalized of the society. As we know, every person in the human society wants to grow, develop as a decent person. For this process social work helps them to grow as good human persons.

All of us want to increase our social, economical and human status. Along this line, for years social work centers and social services through NGOs involvement had done a great service to the humanity. Here in Davangere district of Karnataka, Don Bosco Child Labour Mission (DBCLM) for the past 23 years doing this human service for the upliftment of the poor and marginalized children and women. We specialized ourselves in the area of child care and development. We, through our various projects spread awareness on child rights, human rights, eradication of child labour, preventing child marriages initiating train-

ing to the community stake holders, such as SDMCs (School Development Monitoring Committee), Panchayat raj members, youth groups, school teachers, SHGs and those people who own up the rights of children.

For this section of the society we give weekly and monthly trainings on child rights, how to curtail child labour and promote basic education to children. The core child related issues are identified and through community dialogue, solutions are brought forth and issues are addressed. For this reason every village panchayath will have a Child Protection Committee (CPC) and DBCLM follows up this process through periodical follow ups. We also prevent school dropouts by our presence by providing supplementary education in 25 villages of Davangere; an average of 50 children in a center and that adds up to a total number of 1250 children making use of this service everyday.

Through our Residential Bridge Course (RBC) every year we empower 60 to 70 children

in the basic subjects. All this we do to promote social justice, equality, universal brotherhood and development to people who are deprived of this. We follow our father and founder St. John Bosco, affectionately known as Don Bosco, who started this work for the street children of Italy in the 18th century. He used to tell his children "it is enough that you are young to love you", following his footsteps we Salesians (SDBs) are fully involved in the service of the poor and marginalized of our district.

I am happy to present a brief report of our humble efforts of social work in the month of July 2019 in this edition of *Suddipatra*.
